Para Rocket White CF3 PyroPol

Handheld long distance signal for collision warning and to illuminate areas for use during day or night

The Para Rocket White CF3 is using for collision warning and to illuminate areas in search and resque operations. Designed to withstand even exceptional environmental conditions and to ensure reliable operation even after immersion in water. The firing pin and safe ignition from the bottom, the cold end of the rocket, and a low recoil ensure easy and safe handling. In addition ensures the twist stabilization for lower wind sensitivity The rocket ejects a white flare at 350m, which burns for 30 seconds at 90.000 candela.
