Small trolley bag w/ telescopic handle – EMG 5683

5683 has two heavy duty plastic wheels giving it a trolley function.

- A hidable telescopic handle has been implemented to ease handling and use.
- The straps and handles are made from high quality polyester webbing.
- The bag has handles mounted in each end of the bag to ease handling.
- A hard plate is placed inside the bottom to keep the bag in shape.
- The bottom of the bag has plastic rails to protect and prolong the life of the bag.
- Plastic feet are placed underneath the bag to offer protection and stability when standing vertically.
- A removable nametag pocket is placed on top of the bag. It is attached by velcro.
- A transparent plastic pocket is placed on the inner side of the lid.
- The inside of the bag contains one large main compartment which is padded with foam to offer protection to the content inside.
- A small zipper pocket is placed on the side of the bag for easy access to keys, phone, passport or similar.
