Solid casted lifting bag w. handle – EMG 4270

The bottom is made of hard plastic to keep the bag in shape and prolong the lifespan of the bag.

- It’s very strong and is great for tools and spare parts with sharp edges.
- The bottom lets in light, for easier operation inside the bag.
- The two wings of the bag can be folded inwards and kept in place by a small carabiner. The carabiner comes with the bag.
- A strong and foldable handle is placed in each end of the bag.
- It has a double velcro closing mechanisme.
- A transparent velcro pocket for documentation is placed on the front of the bag. The pocket is detachable by velcro.
