Small square tool bag – EMG 3225

This edition has two pockets on the inside walls. The pockets are closed by velcro.

- It is made of extra heavy dual layer tarpaulin material, making the bag water repellent.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
- The hard bottom is made of hard PEHD plastic to keep the bag in shape and prolong the life of the bag. The bottom cover can easily be replaced if needed.
- A hard plastic plate is placed inside the bag to offer weight distribution.
- The bag has handles mounted on the side to ease handling.
- A dual velcro closing device makes the bag easy and secure to close.
