

Tonnage Measurement of Ships, 1970 Edition

Tonnage Measurement of Ships, 1970 Edition

A text which establishes a universal system of tonnage measurement for ships engaged in international voyages, this includes:

- Final Act of the Conference;
- International Convention on Tonnage Measurement of Ships (Tonnage), 1969, including:
 - Regulations for determining gross and net tonnages of ships
 - International Tonnage Certificate;
 - Recommendations adopted by the Conference.
