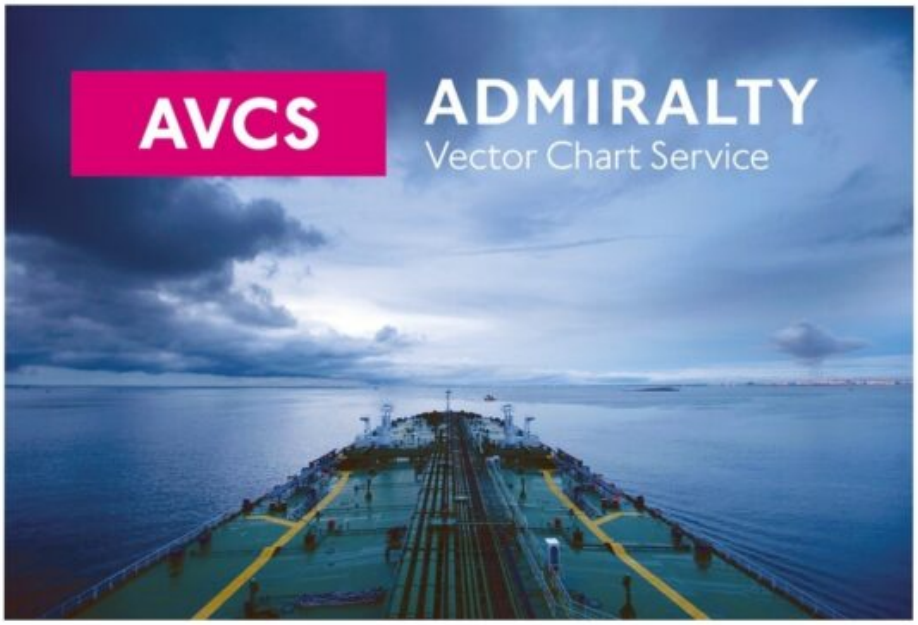
# Electronic Charts



The ADMIRALTY Vector Chart Service (AVCS) is the world's leading official digital maritime chart service, with over 17,000 official Electronic Navigational Charts (ENCs) to help bridge crews navigate safely and efficiently whilst meeting flag and port State requirements.

Key features of AVCS include:

- Global maritime ENC coverage with more routes and ports than any other competing service

- Unique ADMIRALTY Information Overlay (AIO) for additional passage planning information□□□□□□
- Weekly updates available via email, online or on DVD to ensure ongoing safety and compliance
- Delivered in industry standard S-63 / S-57 formats, guaranteeing compatibility with all ECDIS sold today – even in a mixed fleet
