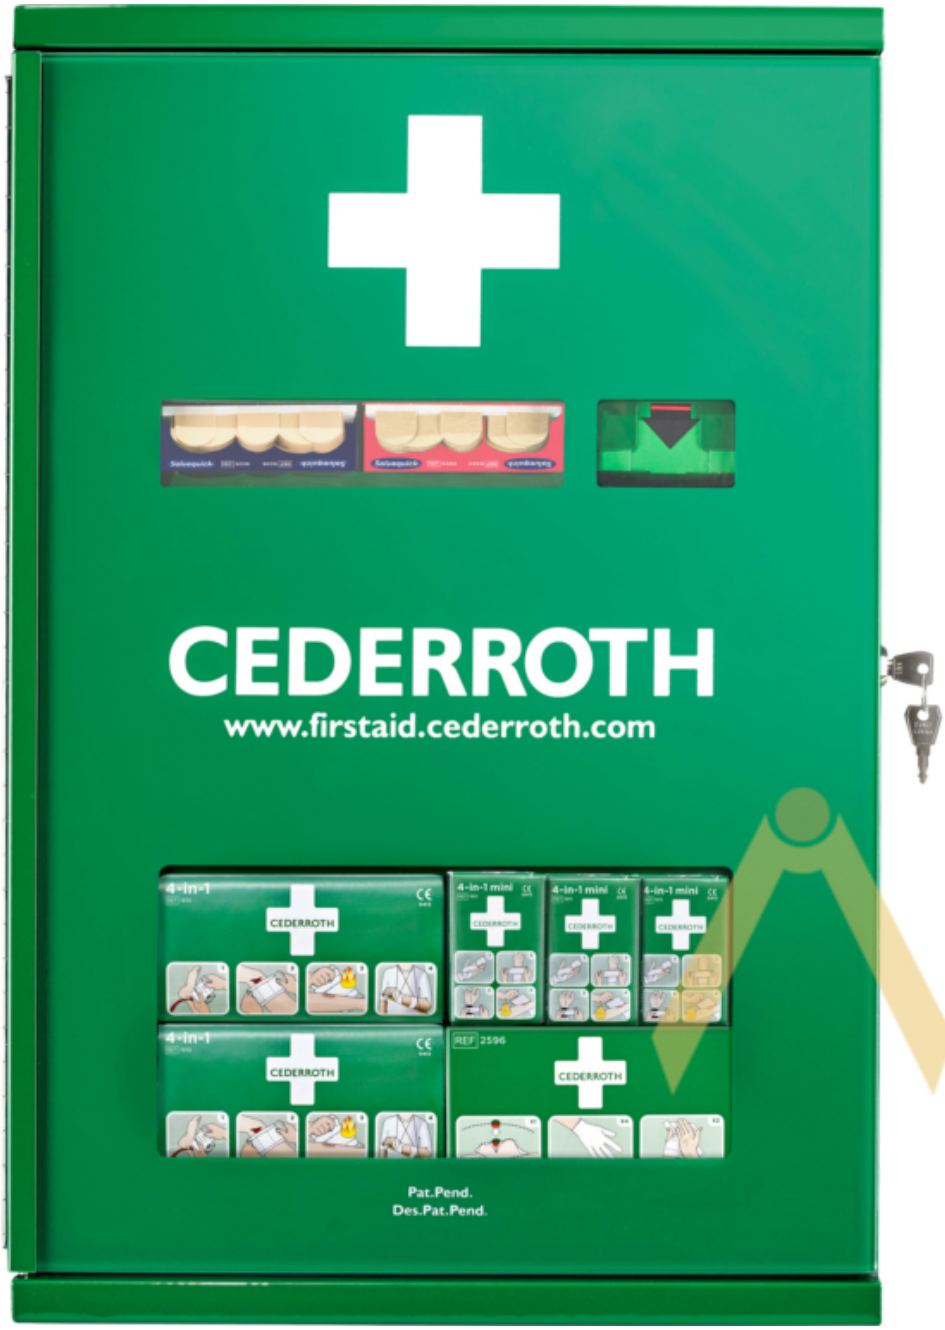
First Aid Cabinet Double Door CEDERROTH



This First Aid Cabinet has been specially designed for workplaces that are particularly susceptible to, for example, dirt, dust and moisture. It is suitable for areas that justify more extensive First Aid equipment. The cabinet is made of metal and has two doors that divide the cabinet into two sections. The outer section is organised as a First Aid panel with First Aid products that are easily accessible. A

Plexiglass door protects the products. from dust and moisture. The inner section of the cabinet consists of a lockable space for a substantial stock of refill products
