CEDERROTH
Eye Wash

Cederroth Eye Wash works to neutralise the eye’s pH value, i.e. it has a neutralising effect on alkali or acid splashes, giving a quicker result than a normal sodium chloride solution. The effect is generally stronger on alkalis than acids. Shelf life of 4.5 years. If you have an accident with a substance that contains calcium (for example, cement, concrete or lime), you can safely rinse with Cederroth Eye Wash as it is 100% phosphate-free. This ensures that the eye is rinsed as effectively as possible.

Content:

2 (x 500 ml) sterile isotonic borate buffered sodium chloride solution without preservatives for single use. Bottle dimensions: Ø 6.5 x 23.5 cm. Shelf life 4.5 years

REF: 725200
