Bright Star’s WorkSAFE 2217

Most affordable industrial flashlights. The flashlights that make up Bright Star’s WorkSAFE series are the lowest- priced Class I, Division I rated lights in the world. Which means, for just a fraction more than the cost of non-safety rated flashlights, you can own the safest hazardous-environment-ready flashlights available. The WorkSAFE series includes 2D and 3D-sized flashlights (both available in waterproof models), lanterns, all Class I, Division I rated for unsurpassed safety in the most hazardous environments and they’re all affordable enough to meet even the most modest budgets.
