Fomtec Enviro 3×3 Ultra – fluorine-free alcohol-resistant foam concentrate (MED)

Fluorine-free, multipurpose alcohol-resistant foam concentrate – no intentionally added PFAS. Spreads quickly over the burning surface; special polymers make it effective on polar solvents (IPA, methanol, ethanol, acetone). For class A and B fires, as low- and medium-expansion foam – branchpipes and monitors.

No intentionally added PFAS. Effective with fresh and sea water on heptane, acetone and IPA. HOCNF documented.

Technical data

- **Type:** fluorine-free alcohol-resistant
- **Proportioning:** 3% on hydrocarbons and polar solvents; 0.3–1% for class A fires
- **Chemistry:** fluorine-free – no intentionally added PFAS
- **Freezing point:** -12 °C
- **Density (20 °C):** 1.035 ± 0.01 g/ml
- **pH:** 6.5–8.5
- **Viscosity (20 °C):** pseudoplastic
- **Storage temperature:** -11 to 55 °C
- **Shelf life:** over 10 years in original, unopened packaging (temperate climate)
- **Approvals:** MED Module B and D, EN 1568-1, -3, -4, ABS
- **Packaging:** canister, IBC; others on request

Manufacturer: Dafo Fomtec AB (Sweden). MED certificates, technical datasheet and safety data sheet available on request.
