Semmco EEBD – belt clips and waist belt

Semmco clips and adjustable waist belt allow an EEBD to be carried close to the wearer. The clips attach to both sides of the storage case and the belt passes through them.

Manufacturer: Semmco LPS
Compatibility: Marine 15 EEBD and Industrial 20 EEBD
Carrying position: around the waist
Attachment: clip-on fittings

The position can be adjusted to suit the work being performed. Clips can be used with the Semmco belt or a suitable existing waist belt. This entry covers carrying accessories; the EEBD apparatus is a separate product.
