

**Inflatable lifejacket Anti  
Static yellow 300N BESTO**

## **Inflatable lifejacket Anti Static yellow 300N BESTO**

A lifejacket with anti static and flame retardant properties according to EN 1149-3 / EN ISO14116-1. The anti static values of the materials prevent ignition due to electrostatic discharge. Therefore the jacket is suitable for use on or near water at explosive hazardous environments, for example refineries, chemical plants or on board of tankers.
