Crystal Magnifier (4x) with Compass Rose – Weems & Plath

Weems & Plath, a manufacturer of excellent nautical instruments, has created crystal glass of high optical quality with an embossed compass rose, making it an excellent instrument for navigation on a sea map. With crystal clarity and 4x magnification, this magnifier enlarges a small printout for any task and is a welcome addition to your desk or navigation table. The scratch-resistant magnifier is more durable than acrylic models and is packed in attractive packaging.
