Large square lifting bag – EMG 5327

As part of the bag comes a foldable upright plastic bucket.The bucket is folded and assembled by velcro and can be folded out to be one flat piece of plastic.

- This model is equipped with a dual velcro closing method.
- 5327 bag is made of high quality tarpaulin material making it water repellent.
- This bag has tube handles on the front and back for easy handling.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
- The hard bottom is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. The bottom is replaceable and can easily be replaced if needed.
