Pitch cylinder bag – US webbing – EMG 7065

NOTE: This bag has strong polyester lifting slings, approved for use in the US.

- This bag will have the option to lift in three different direction. Horizontally and vertically in both ends.
- 7065 opens all the way in the top and has a triple closure function for safety.
- It is closed by zipper. The zipper is protected by velcro. The opening is then further secured by three safety ribbons with stainless steel buckles.
- it comes with two round EVA-foam blocks to fit in each end of the bag. These foam blocks will shorten the compartmen space to 100 cm total.
