Square bag with US webbing – EMG 7061

NOTE: This bag has strong polyester lifting slings, approved for use in the US.

- The lifting slings is equipped with steel fittings.
- A removable velcro patch is placed on top of the lid
- 4 handles are placed on the bag. One on each side.
- A 20 mm bottom plate of hard foamed PVC is placed inside to strengthen the bag and ensure optimal weight distribution.
- 10 mm plastic plates are placed inside all 4 walls to keep the bag upright and stable.
- The lid has a double closure through zipper and velcro.
- Each of the plates can be removed from the bag. This is handy for saving up space when transporting or storing the bag.
- The bottom is made of Polypropylene Log Plastic to keep the bag in shape and extend the lifespan of the bag. The bottom is replaceable and can easily be replaced.
