Square lifting bag w/ steel fittings – EMG 5622

As part of the bag comes a foldable upright plastic box. The bucket is folded and assembled by velcro and can be folded out to be one flat piece of plastic.

- This model is equipped with a dual velcro closing method.
- 5622 is made of high quality tarpaulin material making it water repellent.
- This bag has tube handles on all four sides for easy handling.
- A transparent plastic pocket is placed on the front of the bag for A5-sized documentation.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
- Inside the bottom is placed a 20 mm PVC plate to offer safety and weight distribution.
- The bottom cover is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. It can easily be replaced if needed.
