

Para Rocket Red CF3 SOLAS PyroPol

Handheld long-distance signal for use during by day or night

The Para Rocket Red CF3, – SOLAS -, approved to SOLAS/MED/USCG is designed to withstand even exceptional environmental conditions and to ensure reliable operation even after immersion in water. The firing pin and safe ignition from the bottom, the cold end of the rocket, and a low recoil ensure easy and safe handling. In addition ensures the twist stabilization for lower wind sensitivity The rocket ejects a red flare at 350m, which burns for 40 seconds at 30.000 candela.

Required on the ship bridge and kept available on board the life boats and rafts.

Recommended for all types of boats – whether for business or leisure.
